The Website uses cookies and similar technologies (collectively “tools”) provided either by us or by third parties.

A cookie is a small text file that is stored on your device by the browser. Comparable technologies are, in particular, web storage (local / session storage), fingerprints, tags, or pixels. Most browsers are set by default to accept cookies and similar technologies. However, you can usually adjust your browser settings so that cookies or similar technologies are rejected or only stored with your prior consent. If you refuse cookies or similar technologies, you may not be able to use all of our services without problems.

In the following, the tools we use are listed by category, whereby we inform you in particular about the providers of the tools, the storage period of the cookies, and the transfer of data to third parties. We

also explain in which cases we obtain your voluntary consent to use the tools and how you can revoke this consent.

8.1 Legal basis and revocation

8.1.1 Legal basis

We use tools that are necessary for the operation of the website on the basis of our legitimate interest in enabling you to use our website more conveniently and individually and to make use of it as time-saving as possible. In certain cases, these tools may also be necessary for the performance of a contract or to carry out pre-contractual measures. In these cases, access to and storage of information in the terminal device is absolutely necessary and is carried out in the EU on the basis of the implementation laws of the ePrivacy Directive of the EU member states.

We use all other tools, especially those for marketing purposes, on the basis of your consent. In these cases, access to and storage of information in the end device is subject to consent and is carried out in the EU on the basis of the implementation laws of the ePrivacy Directive of the EU member states.

If personal data is transferred to third countries, we refer you to our privacy policy, also with regard to the risks this may entail. If you have given your consent to use certain tools, we will (also) transfer the data processed when using the tools to third countries on the basis of this consent.

8.1.2 Obtaining your consent

Our website uses a Cookie Banner to collect and manage consent and any revocations. When you make a decision in the consent banner, a cookie is set that records your consent or refusal. We use this technically necessary cookie on the basis of our legitimate interest in documenting your consent. Access to and storage of information in the end device is absolutely necessary in these cases and is carried out in the EU on the basis of the implementation laws of the ePrivacy Directive of the EU member states. If you delete your cookies, we will ask you for your consent again when you access the website at a later date.

8.1.3 Withdrawing your consent or changing your selection

You can revoke your consent for certain or all tools at any time. To do so, please go to the settings in our cookie banner. Alternatively, you can assert your revocation for certain tools directly with the provider.

8.2 Essential Tools

We use certain tools to enable the basic functions of our website ("Essential tools"). Without these tools, we could not provide our service. Therefore, Essential tools are used without consent based on
